

We are now a Fixed Fee Firm!

BMG has recognized the emerging trend for clients to request certainty regarding professional fees.

We now quote your compliance work (tax returns and the like) up front, fully detailing what we expect from us as your accountant and the fees we charge.

Take the worry and the guess work out of your annual or monthly ritual and embrace this new system.

Why did we go fixed fee?

To enable us to mutually agree on the services you want and the value of each service before services are provided.

How do we come up with your fee?

For existing clients our fees are derived from our time cost records. For new clients we have taken into consideration your personal circumstances and the services we anticipate providing to you.

What if my situation changes after signing the fixed fee quote?

You and your relationship manager will discuss and agree any changes that may be required due to unforeseen factors not in your fixed fee agreement.

BMG are constantly striving to improve our systems, services and client satisfaction.

We welcome all feedback and questions in regards to this new initiative.

We understand that you may have questions, so please give Narelle Wickham or your relationship manager a call and have a chat about how we can make this

Does this change the way I pay?

Fixed fee arrangements give you more choice when it comes to paying.

As your fees will be known in advance, we are able to put in place;

- a 12 monthly payment plan, or
- upfront payment when you send in your records, or
- payment when you receive the invoice once your job is completed.
